About this piece

Tea and cake table in mahogany, attributed to E. W. Godwin, aligned to the *Aesthetic Movement* (1860–1890), **c.1881**, British. The table is composed with a circular main surface, an upper circular tier on an extended turned centre support and a lower circular display shelf.

The structure stands on three outward-splayed turned legs, each ring-turned and linked by shaped stretchers to the lower circular shelf. The raised circular rims, central turned column and tripod arrangement give the piece a light vertical form, designed for serving,

display and occasional domestic use.

The design is illustrated in Susan Weber Soros, *The Secular Furniture of E. W. Godwin*, p.170, ill.244. (see last image)

Additional measurement: Top display shelf diameter: 34.5cm / 13.58"
