About this piece

Richard Charles (1823-93), an Aesthetic Movement ebonised elbow chair

Circa 1866, with ball finials, a ladder back, later leather seat, gilt highlights, and X-frame base with X-frame stretcher, on casters, 83cm high. The attribution is based on the details on the chair in the following lot. This chair represents an extremely rare design from the very beginnings of the Aesthetic Movement.

Seat height: 40cm, arm height: 62cm.
