About this piece

Sopworth & Son. Newcastle.

A super quality set of five English Gothic Revival oak dining chairs with subtle ebonized and sycamore circular segmented inlays to the extending head rails, the whole on turned front legs with an H stretcher uniting the back legs.

Recently professionally re-upholstered by our traditional upholterer. Top quality work using horse hair and traditional materials. If you wanted to change the top fabric it is a simple inexpensive job to do as all of the main work is new. The last image is before we upholstered them.

Stamped Sopwith & Co. Newcastle.

Sopworth & Sons. C1769 - C1879 were the most successful cabinet makers in the North of England. They were known for quality, inventiveness and one of the most interesting cabinet makers in Newcastle.
